

U.S. DEPTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
MEDFORD DISTRICT OFFICE
GRANTS PASS RESOURCE AREA

**Categorical Exclusion Determination and Decision Record for
the issuance of a
Right-of-Way Grant under Title V of the Federal Land Policy and Management Act (as
Amended), P.L. 94-579, and the regulations at 43 CFR 2800
Serial No. OR 64104 FD
CE-OR-117-08-20**

Location of Right-of-Way and Name of Applicant:

T. 37 S., R. 7W., Section 13
Medford District, Grants Pass Resource Area, Josephine County
HUC6: Applegate River-Cheney Creek, 171003090605 (see Exhibit A Map attached).
Applicant: Sheila G. Van Zandt

Description of Proposed Action

The proposed action is the issuance of right-of-way grant to Sheila G. Van Zandt (applicant), under the provisions at 43 CFR Part 2800, and Title V of P.L. 94-579; 90 Stat 2743. This has been serialized as case No. OR 64104 FD.

The requested period of use is for a term of (perpetual).

The proposed uses include:

The use and maintenance of existing roads (identified in the table below) for the purposes of ingress and egress to timber land property, and authorization of timber hauling from land owned by the applicant which is located in:

T. 37 S. , R. 7 W, Sec. 13, N1/2NW1/4.

BLM Roads to be Included in Right-of-Way			
BLM Road/Segment No.	Segment Length	Length to be Used	Present Surface Type
37-7-14.4	0.64 mi.	0.64 mi.	ROCK

The affected roads and/or lands are located in Josephine County on BLM lands administered by the Grants Pass Resource area. The proposed right-of-way location is shown on the attached map labeled as Exhibit A.

Project Design Features

Seasonal restrictions for commercial hauling will be in place from March 1 through June 30 to exclude disturbance to nesting spotted owls. Restrictions may be lifted if surveys show that owls are nesting further than ¼ mile from these road systems or are not nesting during the proposed hauling period.

Notify the Authorized Officer upon discovery of any noxious weed species found on the right-of-way area. The Holder is responsible for immediate control and eradication. The Holder shall consult with, and obtain written approval from, the Authorized Officer for acceptable weed control methods, such as mechanical or chemical, or provide funds to BLM for treatment.

See Exhibit B and Exhibit C attached hereto for additional project design features.

Plan Conformance Review

This proposed action is consistent with policy directed by the following:

- the *Final Supplemental Environmental Impact Statement and Record of Decision for Amendments to Forest Service and Bureau of Land Management Planning Documents Within the Range of the Northern Spotted Owl* (Northwest Forest Plan FSEIS, 1994 and ROD, 1994);
- the *Final-Medford District Proposed Resource Management Plan/Environmental Impact Statement and Record of Decision* (EIS, 1994 and RMP/ROD, 1995);
- the *Final Supplemental Environmental Impact Statement: Management of Port-Orford-Cedar in Southwest Oregon* (FSEIS, 2004 and ROD, 2004);
- *Medford District Integrated Weed Management Plan Environmental Assessment (1998)* and tiered to the *Northwest Area Noxious Weed Control Program* (EIS, 1985)
- *Record of Decision to Remove the Survey and Manage Mitigation Measure Standards and Guidelines in Forest Service and Bureau of Land Management Plans within the Range of the Northern Spotted Owl*. (July 2007)

The proposed action is in conformance with the direction given for the management of public lands in the Medford District by the Oregon and California Lands Act of 1937 (O&C Act), Federal Land Policy and Management Act of 1976 (FLPMA), the Endangered Species Act (ESA) of 1973, the Clean Water Act of 1987, Safe Drinking Water Act of 1974 (as amended 1986 and 1996), Clean Air Act, and the Archaeological Resources Protection Act of 1979.

This proposed action is consistent with management direction in the Medford District Resource Management Plan that directs the BLM to continue to make BLM-administered lands available for needed rights-of-way where consistent with local comprehensive plans, Oregon state-wide planning goals and rules, and the exclusion and avoidance areas identified in the Resource Management Plan (USDI 1995, p. 82).

Categorical Exclusion Determination

This proposed action qualifies as a categorical exclusion as provided in United States Department of the Interior Departmental Manual 516 DM 11.9, E. Realty (16): *Acquisition of easements for an existing road or issuance of leases, permits, or rights-of-way for the use of existing facilities, improvements, or sites for the same or similar purposes.*

Before any action described in the list of categorical exclusions may be used, the "extraordinary circumstances," included in 516 DM 2, Appendix 2, must be reviewed for applicability (See attached review). After review, the BLM determined no extraordinary circumstances exist that would cause the proposed action to have a significant environmental effect. The action will not require additional analysis.

Decision

It is my decision to authorize right-of-way grant serial No. OR 64104 FD as described in the Proposed Action. The Right-of-Way grant is planned to be issued in 2008.

Decision Rationale

The proposed action has been reviewed by the Grants Pass Resource Area staff and appropriate Project Design Features (Exhibits B & c) will be incorporated into the proposal. Based on the attached NEPA (National Environmental Policy Act) Categorical Exclusion Review, I have determined the proposed action involves no significant impact to the environment and no further environmental analysis is required.

ADMINISTRATIVE REMEDIES:

Administrative review of right-of-way decisions requiring National Environmental Policy Act (NEPA) assessment will be available under 43 CFR Part 4 to those who have a "legally cognizable interest" to which there is a substantial likelihood that the action authorized would cause injury, and who have established themselves as a "party to the case." (See 43 CFR § 4.410 (a) – (c)). Other than the applicant/proponent for the right-of-way action, in order to be considered a "party to the case" the person claiming to be adversely affected by the decision must show that they have notified the BLM that they have a "legally cognizable interest" and the decision on appeal has caused or is substantially likely to cause injury to that interest (See 43 CFR § 4.410(d)).

EFFECTIVE DATE OF DECISION

This is a land decision on a right-of-way application. All BLM decisions under 43 CFR Part 2800 remain in effect pending an appeal (See 43 CFR § 2801.10) unless the Secretary rules otherwise. Rights-of-Way decisions that remain in effect pending an appeal are considered as “in full force and effective immediately” upon issuance of a decision. **Thus, this decision is now in effect.**

RIGHT OF APPEAL

This decision may be appealed to the U.S. Department of the Interior, Office of Hearings and Appeals, Interior Board of Land Appeals (Board) by those who have a “legally cognizable interest” to which there is a substantial likelihood that the action authorized in this decision would cause injury, and who have established themselves as a “party to the case.” (See 43 CFR § 4.410). If an appeal is taken, a written notice of appeal must be filed with the BLM officer who made the decision in this office by close of business (4:30 p.m.) not more than 30 days after the date of service. Only signed hard copies of a notice of appeal that are delivered to the following address will be accepted:

*BUREAU OF LAND MANAGEMENT
GRANTS PASS INTERAGENCY OFFICE
2164 NE Spalding Avenue
Grants Pass, OR 97526*

Faxed or e-mailed appeals will not be considered.

The person signing the notice of appeal has the responsibility of proving eligibility to represent the appellant before the Board under its regulations at 43 CFR § 1.3. The appellant also has the burden of showing that the decision appealed from is in error. The appeal must clearly and concisely state which portion or element of the decision is being appealed and the reasons why the decision is believed to be in error. If your notice of appeal does not include a statement of reasons, such statement must be filed with this office and with the Board within 30 days after the notice of appeal was filed.

According to 43 CFR Part 4, you have the right to petition the Board to stay the implementation of the decision. Should you choose to file one, your stay request should accompany your notice of appeal. You must show standing and present reasons for requesting a stay of the decision. A petition for stay of a decision pending appeal shall show sufficient justification based on the following standards:

1. The relative harm to the parties if the stay is granted or denied,
2. The likelihood of the appellant’s success on the merits,
3. The likelihood of immediate and irreparable harm if the stay is not granted, and
4. Whether the public interest favors granting the stay.

A notice of appeal with petition for stay must be served upon the Board, the Regional Solicitor and Sheila G. VanZandt at the same time such documents are served on the deciding official at this office. Service must be accomplished within fifteen (15) days after filing in order to be in compliance with appeal regulations. 43 CFR § 4.413(a). At the end of your notice of appeal you must sign a certification that service has been or will be made in accordance with the applicable rules (i.e., 43 CFR §§ 4.410(c) and 4.413) and specify the date and manner of such service.

The IBLA will review any petition for a stay and may grant or deny the stay. If the IBLA takes no action on the stay request within 45 days of the expiration of the time for filing a notice of appeal, you may deem the request for stay as denied, and the BLM decision will remain in full force and effect until IBLA makes a final ruling on the case.

HOW TO FILE AN APPEAL

See the attached Form 1842-1 for complete instructions on Filing an Appeal

INFORMATION ON TAKING APPEALS TO THE INTERIOR BOARD OF LAND APPEALS

DO NOT APPEAL UNLESS

1. This decision is adverse to you,
AND
2. You believe it is incorrect

IF YOU APPEAL, THE FOLLOWING PROCEDURES MUST BE FOLLOWED

1. NOTICE OF APPEAL.....	A person who wishes to appeal to the Interior Board of Land Appeals must file in the office of the officer who made the decision (not the Interior Board of Land Appeals) a notice that he wishes to appeal. A person served with the decision being appealed must transmit the <i>Notice of Appeal</i> in time for it to be filed in the office where it is required to be filed within 30 days after the date of service. If a decision is published in the FEDERAL REGISTER, a person not served with the decision must transmit a <i>Notice of Appeal</i> in time for it to be filed within 30 days after the date of publication (43 CFR 4.411 and 4.413).
<hr/>	
2. WHERE TO FILE	
NOTICE OF APPEAL.....	U.S. Department of the Interior, Bureau of Land Management Grants Pass Interagency Office 2164 NE Spalding Grants Pass, OR 97526
WITH COPY TO SOLICITOR...	Regional Solicitor, Pacific Northwest Region U.S. Dept. of the Interior Lloyd 500 Building, Suite 607 Portland, OR 97232
<hr/>	
3. STATEMENT OF REASONS	Within 30 days after filing the <i>Notice of Appeal</i> , file a complete statement of the reasons why you are appealing. This must be filed with the United States Department of the Interior, Office of Hearings and Appeals, Interior Board of Land Appeals, 801 N. Quincy Street, MS 300-QC, Arlington, Virginia 22203. If you fully stated your reasons for appealing when filing the <i>Notice of Appeal</i> , no additional statement is necessary (43 CFR 4.412 and 4.413).
WITH COPY TO SOLICITOR.....	Regional Solicitor, Pacific Northwest Region U.S. Dept. of the Interior Lloyd 500 Building, Suite 607 Portland, OR 97232
<hr/>	
4. ADVERSE PARTIES.....	Within 15 days after each document is filed, each adverse party named in the decision and the Regional Solicitor or Field Solicitor having jurisdiction over the State in which the appeal arose must be served with a copy of: (a) the <i>Notice of Appeal</i> , (b) the Statement of Reasons, and (c) any other documents filed (43 CFR 4.413).
<hr/>	
5. PROOF OF SERVICE.....	Within 15 days after any document is served on an adverse party, file proof of that service with the United States Department of the Interior, Office of Hearings and Appeals, Interior Board of Land Appeals, 801 N. Quincy Street, MS 300-QC, Arlington, Virginia 22203. This may consist of a certified or registered mail "Return Receipt Card" signed by the adverse party (43 CFR 4.401(c)).
<hr/>	
6. REQUEST FOR STAY.....	Except where program-specific regulations place this decision in full force and effect or provide for an automatic stay, the decision becomes effective upon the expiration of the time allowed for filing an appeal unless a petition for a stay is timely filed together with a <i>Notice of Appeal</i> (43 CFR 4.21). If you wish to file a petition for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Interior Board of Land Appeals, the petition for a stay must accompany your <i>Notice of Appeal</i> (43 CFR 4.21 or 43 CFR 2801.10 or 43 CFR 2881.10). A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the <i>Notice of Appeal</i> and Petition for a Stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted. Standards for Obtaining a Stay. Except as otherwise provided by law or other pertinent regulations, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards: (1) the relative harm to the parties if the stay is granted or denied, (2) the likelihood of the appellant's success on the merits, (3) the likelihood of immediate and irreparable harm if the stay is not granted, and (4) whether the public interest favors granting the stay.

Unless these procedures are followed, your appeal will be subject to dismissal (43 CFR 4.402). Be certain that **all** communications are identified by serial number of the case being appealed.

NOTE: A document is not filed until it is actually received in the proper office (43 CFR 4.401(a)). See 43 CFR Part 4, Subpart B for general rules relating to procedures and practice involving appeals.

(Continued on page 2)

43 CFR SUBPART 1821--GENERAL INFORMATION

Sec. 1821.10 Where are BLM offices located? (a) In addition to the Headquarters Office in Washington, D.C. and seven national level support and service centers, BLM operates 12 State Offices each having several subsidiary offices called Field Offices. The addresses of the State Offices can be found in the most recent edition of 43 CFR 1821.10. The State Office geographical areas of jurisdiction are as follows:

STATE OFFICES AND AREAS OF JURISDICTION:

Alaska State Office ----- Alaska
Arizona State Office ----- Arizona
California State Office ----- California
Colorado State Office ----- Colorado
Eastern States Office ----- Arkansas, Iowa, Louisiana, Minnesota, Missouri
and, all States east of the Mississippi River
Idaho State Office ----- Idaho
Montana State Office ----- Montana, North Dakota and South Dakota
Nevada State Office ----- Nevada
New Mexico State Office ---- New Mexico, Kansas, Oklahoma and Texas
Oregon State Office ----- Oregon and Washington
Utah State Office ----- Utah
Wyoming State Office ----- Wyoming and Nebraska

(b) A list of the names, addresses, and geographical areas of jurisdiction of all Field Offices of the Bureau of Land Management can be obtained at the above addresses or any office of the Bureau of Land Management, including the Washington Office, Bureau of Land Management, 1849 C Street, NW, Washington, DC 20240.

(Form 1842-1, September 2006)

**Categorical Exclusion Review for the issuance of a
Right-of-Way Grant under Title V of the Federal Land Policy and Management Act Serial
No. OR 64104 FD
CE-OR-117-08-20**

NEPA Categorical Exclusion Review

Proposed Action:

The use and maintenance of existing roads (identified in the table below) for the purposes of ingress and egress to timber land property, and authorization of timber hauling from land owned by the applicant

Department of the Interior Manual 516 DM 2, Appendix 2 provides for a review of the following criteria for categorical exclusion to determine if exceptions apply to the proposed action based on actions which may:

1. *Have significant impacts on public health or safety.*

No Remarks: This project is virtually the same as numerous other projects and no such impacts have been identified.

2. *Have significant impacts on such natural resources and unique geographic characteristics as historic or cultural resource;, park, recreation, or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands (Executive Order 11990); floodplains (Executive Order 11988); national monuments; migratory birds; and other ecologically significant or critical areas.*

No Remarks: activities occur within an established ROW and no effects are anticipated.

3. *Have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources [NEPA Section 102(2)(E)].*

No Remarks: This is standard use for this type of road.

4. *Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks.*

No Remarks: Environmental risks are the same as other similar projects.

5. *Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.*

No Remarks: This project is similar to many other projects and does not set a precedent for future actions.

6. *Have a direct relationship to other actions with individually insignificant but cumulatively significant environmental effects.*

Yes Remarks: This project authorizes use of an existing road – there are no other connected actions.

7. *Have significant impacts on properties listed, or eligible for listing, on the National Register of Historic Places as determined by either the bureau or office.*

No Remarks: No impacts are expected as all activities occur in previously disturbed areas.

8. *Have significant impacts on species listed, or proposed to be listed, on the List of Endangered or Threatened Species, or have significant impacts on designated Critical Habitat for these species.*

Plants No

Animals No

Fish No

9. *Violate a Federal law, or a State, local, or tribal law or requirement imposed for the protection of the environment.*

No Remarks: There is no evidence that this proposal will violate any laws.

10. *Have a disproportionately high and adverse effect on low income or minority populations (Executive Order 12898).*

No Remarks:

11. *Limit access to and ceremonial use of Indian sacred sites on Federal lands by Indian religious practitioners or significantly adversely affect the physical integrity of such sacred sites (Executive Order 13007).*

No Remarks: This project places no restrictions on access by others

12. *Contribute to the introduction, continued existence, or spread of noxious weeds or nonnative invasive species known to occur in the area or actions that may promote the introduction, growth, or expansion of the range of such species (Federal Noxious Weed Control Act and Executive Order 13112).*

No

OTHER TERMS AND CONDITIONS

*The Holder shall comply with the applicable Federal and State laws and regulations concerning the use of pesticides (i.e., insecticides, herbicides, fungicides, rodenticides, and other similar substances) in all activities/ operations under this grant. The Holder shall obtain from the Authorized Officer approval of a written plan prior to the use of such substances. The plan must provide the type and quantity of material to be used; the pest, insect, fungus, etc. to be controlled; the method of application; the location for storage and disposal of containers; and other information that the Authorized Officer may require. The plan should be submitted no later than December 1 of any calendar year that covers the proposed activities for the next fiscal year (i.e., December 1, 1979, deadline for a fiscal year 1981 action). Emergency use of pesticides may occur. The use of substances on or near the right-of-way shall be in accordance with the approved plan. A pesticide shall not be used if the Secretary of the Interior has prohibited its use. A pesticide shall be used only in accordance with its registered uses and within other limitations if the Secretary has imposed limitations. Pesticides shall not be permanently stored on public lands authorized for use under this grant.

The United States will not be held liable for any damage to the road caused by the general public or as a result of fire, wind, or other natural disasters or as a result of silvicultural practices, timber harvesting operations, or other actions stemming from the land management activities of the Bureau of Land Management.

Cultural and Paleontological Resources. Any cultural and/or paleontological resource (historic or prehistoric site or object) discovered by the holder, or any person working on his behalf, on public or Federal land shall be immediately reported to the authorized officer. Holder shall suspend all operations in the immediate area of such discovery until written authorization to proceed is issued by the authorized officer. An evaluation of the discovery will be made by the authorized officer to determine appropriate actions to prevent the loss of significant cultural or scientific values. The holder will be responsible for the cost of evaluation and any decision as to proper mitigation measures will be made by the authorized officer after consulting with the holder.

The Holder shall protect existing roads, utility lines and like improvements during operation, maintenance, and termination of the system. The Holder shall not obstruct any road without prior approval of the Authorized Officer. Damage caused by the Holder to public utilities and improvements shall be promptly repaired by the Holder to a condition which is satisfactory to the Authorized Officer.

Natural vegetation shall be cleared or trimmed only when necessary to provide suitable access for operations, maintenance, safety, and termination of the system.

The Holder shall not place signs, gates, or barricades on public land, its resources, or improvements without prior written approval from the Authorized Officer.

The Holder shall be permitted to remove ice and snow from the road authorized for use under the grant only when prior approval has been secured from the Authorized Officer. The Holder shall submit a request for permission to remove ice and snow in advance of the date operations are to begin. Upon receiving authorization for ice and snow removal, the Holder shall perform the work according to the conditions and equipment set forth in the Authorization.

EXHIBIT C

SPECIFICATIONS - ROADSIDE BRUSHING

C.1.0 GENERAL

C.1.1 Description of Work - The work consists of cutting and removing trees and other vegetative growth along both sides of the roadway including bridges.

C.1.2 Operating Permit - State law requires a permit to operate power run machinery. The Contractor shall obtain the permit from the local State Forestry Office prior to the operation of power driven machinery.

C.1.3 Environmental Considerations

1. Equipment Cleaning: Brushing equipment shall be washed prior to entering BLM lands. Removal of all dirt, grease, and plant parts that may carry noxious weed seeds or vegetative parts is required and may be accomplished with a pressure hose.

2. To minimize the spread of Port Orford Cedar Root Disease into noninfected areas the following measures shall be taken:

- a) All contractor equipment and vehicles shall be steam cleaned or washed with high pressure water hose before entering the project area and before leaving the project area. The project areas are shown on the Vicinity Map. Washing will take place at a designated washing station approved by the Contracting Officer. Before leaving the washing station soil and organic matter shall be removed from equipment and vehicles. The equipment used for washing will be sufficient to remove all soil and organic matter from equipment and vehicles. The water used for cleaning contractor equipment and vehicles shall be in quantities sufficient to complete the required washing. The water used at the washing station will be well water or Municipal water.
- b) All water used at the washing station shall drain away from creeks, streams, and the area used for washing.
- c) Report noxious weeds to Grants Pass Resource Area Engineering or Botanists before treating.

3. Do not remove vegetation in Riparian Area with out written Authorization.

4. Do not operate equipment in Riparian Areas with out written Authorization.

C.2.0 DEFINITIONS

Culvert - Any structure which provides a passageway, drain, or waterway under a road or embankment.

Cutting Limits - The vegetation cutting and removal area described in the specifications and/or shown on the exhibit.

Drainage Ditch - A specific type of furrow ditch located within or abutting the roadbed.

Right-of-Way - A general term denoting land, property, or interest therein (usually a strip) acquired for or devoted to transportation purposes.

Roadbed - The portion of a road within the intersection of the top surface and side slopes, excluding that portion of the ditch below the top surface.

Roadside - A general term denoting the area between the roadway and the Right-of-Way line.

Running Surface - The portion of the roadway or bridge for the movement of vehicles, exclusive of shoulders on asphalt paved roads.

Sight Distance - The length of road or bridge ahead visible to the vehicle driver.

Shoulder - The portion of the roadway contiguous with the running surface for accommodation of stopped vehicles or emergency use.

Surface Course - The top layer of a pavement structure, sometimes called the wearing course, usually designed to resist skidding, traffic abrasion, and the disintegrating effects of climate.

Traveled Way - The portion of the roadway for the movement of vehicles, exclusive of shoulders on asphalt paved roads. For purpose of this contract, traveled way includes turnouts and curve widening.

Turnouts - A short auxiliary lane on a one-lane road provided for safe passage of meeting vehicles.

Vegetation - All trees, woody plants, vines etc.

C.5.0 SPECIFIC TASKS

C.5.1 Work shall be performed manually with hand tools including chainsaws. Self-propelled equipment shall not be allowed. The area to be cut shall consist of the roadbed surface, cut slopes and fill slopes.

C.5.1.1 Cutting Limits - The measured horizontal distance beyond the ditch centerline and the measured horizontal distance from the outside shoulder as shown on Drawing OR-11-9113.4-10

C.5.1.2 Bridges - The cutting limits beneath or adjacent to bridges shall extend 8 feet horizontally from each side of the outermost projected line of the bridge including abutments, curbs, rails or decks. All cut brush and trees shall be removed from beneath the bridge and from the stream channel in accordance with either Section C.5.3(a) or Section C.5.3(b).

C.5.1.3 Sight Distance - When needed for sight distance on the inside of circular curves, the middle ordinate measured from the edge of shoulder shall not exceed 25 feet as measured parallel with the slope, and the long chord shall be no less than 200 feet as shown on Drawing OR-11-9113.4-10, Sight Distance Diagram.

C.5.2.0 Cutting Requirements - Permittee shall:

- (a) Cut all vegetation taller than (6) inches in height within the cutting limits that have a trunk or bole less than (7) inches in diameter when measured (54) inches above the ground surface. Vegetation exempted from cutting are trees left from thinning and spacing described in section C.5.2.0(g).
- (b) Cut all vegetation to a maximum height of (1) inch above the ground. All remaining limbs shall be severed from the stump. Sharp pointed ends will not be permitted. Cuts shall be parallel to the existing surface.
- (c) Cut all limbs from trees that have a trunk or bole (7) inches or greater in diameter when measured (54) inches above the ground surface within the cutting limits. Limbs shall be cut to within (1) inch of the limb collar at the trunk or bole for the entire circumference of the trunk and to a height of (14) feet as measured from the roadway surface.
- (d) Cut all limbs that extend into the cutting limits from trees growing outside of the cutting limits. Limbs shall be cut to within (1) inch of the limb collar at the trunk or bole surface. The cutting limit area shall be cleared of all limbs to a height of (14) feet as measured from the roadway surface.

- (e) Clear all vegetation for a minimum of (4) foot radius from all culvert inlets.
- (f) Cut all vegetation as described in Section C.5.2.0 on straight sections of road except as follows: Vegetation need not be cut beyond the outside shoulder of the road where the shoulder is more than (4) feet beyond the basic lane width as shown on Drawing OR-11-9113.4-10
- (g) Thin, space and prune trees through curved sections of road for visibility as shown in Drawing OR-11-9113.4-10. Thinning and spacing of trees shall be a minimum (10) feet in height and (10) feet apart. A minimum (1/3) tree crown shall be maintained on any pruned tree.

C.5.3 Debris - Handling/Disposal

- (a) Roads to be brushed: Debris resulting from roadside brushing shall be scattered down slope below the road shoulder. No debris shall be left in the ditches, channels, catch basins, culverts, roadway, fences, cattle guards, or on the cut slope. Debris shall not be allowed to accumulate in concentrations, but shall be further reduced or removed. Concentrations will be defined as any debris, limbs or branches touching each other or piled on top of each other or any material sticking up over (2) feet in elevation above the ground.
- (b) Roads to be brushed and chipped: Debris resulting from roadside brushing shall be chipped. No debris shall be left in the ditches, channels, catch basins, culverts, roadway, fill slopes or cut slopes. Maximum chip pile size shall be (3) feet in diameter by (2) feet in height. No chip pile shall be located within (20) feet of any stream channel.
- (c) Cut trees or debris shall not be allowed to stand or lean against other standing uncut trees or brush. Such "hangups" shall be removed, reduced and scattered down slope.

C.5.4 Signs, markers, other road appurtenances, and other specially marked items are to remain in place.

C.5.5 Traffic warning signs meeting the minimum requirements as stated in the Manual for Uniform Traffic Control Devices (MUTCD) for shape, size, color and legend shall be provided at each end of the active operating areas.

SUBMITT AN ANNUAL MAINTENANCE OPERATING PLAN FOR APPROVAL
TO GRANTS PASS RESOURCE AREA ENGINEERING

Right of Way Maintenance

SHEET 1 OF 1

Cutting Limit = $C + D + B + F$

B = Basic lane width (includes turnouts)
Width shall be determined by the PI

C = 4 ft - Distance to be brushed on cut slope
beyond centerline of ditch

D = Centerline of ditch to inside shoulder

F = Distance to be brushed on fill slope beyond outside shoulder
(F = 4 when H is 4 ft or less)

(F = 0 when H is greater than 4 ft)

V = 14 ft - Height of vertical cutting limit

Do not operate equipment in Riparian Areas without
written Authorization

Replace Shoulder rock with 3/4 inch minus crushed aggregate
Backfill potholes with 3/4 inch minus crushed aggregate
for Natural and Aggregate Surface Roads
